

2024 Sustainable Energy in America Factbook

Thursday, March 21, 2024 | [EESI.org/032124factbook](https://eesi.org/032124factbook)

Tara Narayanan, Lead Analyst, North America Regional Trends, BloombergNEF

Tara leads cross sectoral analysis for North America, with a focus on long term decarbonization trends. Tara's research at BNEF has covered economic, policy and company trends in US solar and renewables, as well as power markets.

Prior to BloombergNEF, Tara was a manufacturing engineer at an international carmaker. Her research experience includes analyzing consumer preferences for electrification in developing countries and life cycle impacts of agricultural systems.

Helen Walter-Terrinoni, Director of Global Climate Policy, Trane Technologies

Helen Walter-Terrinoni is director of global climate policy for Trane Technologies. She works to proactively advance policies that accelerate climate technology adoption around the world for all. Prior to joining Trane Technologies, Helen was vice president of regulatory affairs at the Air-Conditioning, Heating and Refrigeration Institute (ACHRI). She is currently a co-chair of the UN Montreal Protocol Foams Technical Options Committee and a member of the Technical and Economic Assessment Panel.

Ali McGuigan, Manager, Government Relations, National Grid

Ali McGuigan is a Manager of Government Relations at National Grid. As part of the federal team in the Washington, DC office, she manages federal agency engagement and covers policy and regulatory issues related to climate, environment, and infrastructure. Ali also coordinates the company's response to key federal regulatory filings and public comment periods. She currently serves as a co-chair of the British American Business Association's Energy & Environment Committee. Prior to joining National Grid, Ali was a Director of Government Relations at Public Strategies Washington, Inc.

**Biljana Kaumaya, Head of Federal Affairs,
American Clean Power**

Billie Kaumaya is head of federal affairs at the American Clean Power Association (ACP). She leads ACP's federal team, shaping legislative policies and developing, implementing, and managing federal affairs strategies to advance national energy policies and initiatives in support of clean energy. Kaumaya brings two decades of experience lobbying and working for federal, state and local governments. Most recently she served as legislative affairs director for the National Rural Electric Cooperative Association. She previously worked for the National Association of Home Builders and the American Institute of Architects, focusing primarily on energy and sustainability issues.

**Charles Bolden, Senior Director of Congressional Affairs,
Solar Energy Industry Association**

As the senior director of congressional affairs, Charles leads the Solar Energy Industry Association's energy and carbon portfolio. Charles started off his career in politics working for Congressman Danny K. Davis of Illinois as a fellow. Prior to joining SEIA, Charles served in several roles in Representative Robin Kelly's office, most recently as her energy advisor, including helping to lead an Energy and Commerce Committee round table on diversity in the energy industry.

**Heather Reams, President, Citizens for Responsible Energy
Solutions (CRES) Forum**

Heather Reams is the president of Citizens for Responsible Energy Solutions (CRES) Forum, a right-of center non-profit organization based in Washington, D.C., that engages policymakers and the public about responsible, conservative solutions to address our nation's energy, economic, and environmental security while increasing America's competitive edge.
