High-Performance Green Schools: How to Get Them in Your District

As a new year gets underway for the nation's school children, the High-Performance Buildings Congressional Caucus Coalition is pleased to invite you to a briefing to learn how some school districts are building facilities that save thousands of dollars a year on energy costs, reduce greenhouse gas emissions and environmental impact, and are "healthier" and safer than conventional schools. The panel will also discuss measures the 110th Congress has advanced to provide funding for "high-performance," "green" public school construction and renovation.

Tuesday, October 21, 2008 • 2:00 p.m. – 3:30 p.m.
U.S. House of Representatives
2168 Rayburn House Office Building

Welcoming Remarks
Phil Page

**Legislative Fellow, Representative Russ Carnahan (D-MO),
Co-Chair of the High-Performance Buildings Caucus**

Cade Clurman
**Legislative Director, Representative Judy Biggert (R-IL),
Co-Chair of the High-Performance Buildings Caucus**

Deane Evans, FAIA, LEED AP
**Executive Director, Center for Architecture and Building Science Research,
New Jersey Institute of Technology**

If you want to make a real difference in the quality and affordability of education today, designing high-performance schools is the place to start. Deane Evans will explain the elements of high-performance schools, why they are valuable, and how they can be procured.

Anja Caldwell, LEED AP
Principal, ecoipso LLC

With a focus on meeting the demand for new and updated facilities, Anja Caldwell will discuss the first green school project in Maryland and options for greening existing school buildings.

Lloyd Horwich, Education Counsel and Policy Advisor
Subcommittee on Early Childhood, Elementary and Secondary Education
Committee on Education and Labor
U.S. House of Representatives

Lloyd Horwich will discuss legislative options for supporting green school buildings.

This briefing is free and open to the public. No RSVP is required.
