

Rapid Readout Notice

Frozen Infrastructure:

Winter Storm Impacts on Communities and the Power Grid

Friday, February 20 • 12:00 – 12:30 PM EST

Online Only • Please RSVP @ eesi.org/022026winter#rsvp

Live webcast will be streamed at eesi.org/livecast

The **Environmental and Energy Study Institute (EESI)** invites you to a Rapid Readout on energy resilience and recovery after Winter Storm Fern in late January. Many on the East Coast and in the South took weeks to dig out from this storm. Homes and businesses in Louisiana, Mississippi, and Tennessee have been without electricity for more than a week, leaving residents in life-threatening situations. Building on lessons from past devastating winter storms, such as Winter Storm Uri that impacted Texas in February 2021, this Rapid Readout will examine Fern's impacts on the power grids and potential resilient solutions to help residents weather future storms. Speaker to be announced.

This event is free and open to the public.
