

Briefing Notice

Join us for a briefing on the findings of the
2022 Sustainable Energy in America Factbook

Wednesday, March 9, 2022
1:00 – 2:30 PM EST

Please RSVP to expedite check-in: www.eesi.org/030922factbook
Live webcast will be streamed at: www.eesi.org/livecast

Hosted in coordination with the
House and Senate Renewable Energy & Energy Efficiency Caucuses

Sponsored by:
Business Council for Sustainable Energy and Environmental and Energy Study Institute

The tenth edition of the *Sustainable Energy in America Factbook*, published by **BloombergNEF (BNEF)** and the **Business Council for Sustainable Energy (BCSE)**, will be released on March 3, and will be available to download at www.bcse.org/factbook. The *Factbook* provides updates on industry information and trends for the U.S. energy sector, with an in-depth look at the energy efficiency, renewable energy, and natural gas sectors, as well as emerging areas such as digitalization, micro-grids, offshore wind, hydrogen, and renewable natural gas.

Welcome

Daniel Bresette, Executive Director, Environmental and Energy Study Institute
Emily Duncan, Vice President, Government Relations, National Grid, and Chairman, BCSE Board of Directors

Overview of Factbook and Key Findings

Lisa Jacobson, President, Business Council for Sustainable Energy

Panel Discussion: Latest Industry Trends

Bill Parsons, Vice President for Federal and State Affairs, American Clean Power Association
Vincent Barnes, Senior Vice President of Policy and Research, Alliance to Save Energy
Erin Duncan, Vice President of Congressional Affairs, Solar Energy Industries Association
Mark Lessans, Director of Regulatory and Environmental Affairs, Johnson Controls

This edition of the Factbook provides new data and analysis about the performance of clean energy sectors by tracking year-on-year as well as long-term trends within the U.S. energy economy. Designed for a broad audience—from the energy professional, to the public policymaker, to the curious student—the Factbook offers an insightful and in-depth look at economics, market and investment dynamics, and technology trends.

This event is free and open to the public.
