

Briefing Notice

Join us for a briefing on the findings of the
2023 Sustainable Energy in America Factbook

Wednesday, March 15, 2023

3:00 – 4:30 PM EDT

Rayburn House Office Building Room 2044
45 Independence Ave SW, Washington, DC 20515

Reception to follow

Please RSVP to expedite check-in: www.eesi.org/031523factbook#rsvp
Live webcast will be streamed at: www.eesi.org/livecast

Sponsored by:

Business Council for Sustainable Energy and Environmental and Energy Study Institute

2022 was a record-breaking year for investment in the energy transition and the deployment of renewable power, battery storage, and sustainable transportation according to the eleventh edition of the *Sustainable Energy in America Factbook*. The *Factbook*, published by **BloombergNEF (BNEF)** and the **Business Council for Sustainable Energy (BCSE)**, was released on March 1, and is available to download for free at www.bcse.org/factbook.

The *Factbook* provides valuable year-over-year data and insights on the American energy transformation, with an in-depth look at the energy efficiency, renewable energy, and natural gas sectors, as well as emerging areas such as digitalization, micro-grids, offshore wind, hydrogen, and renewable natural gas.

Speakers for this forum are:

- **Vincent Barnes**, Senior Vice President, Policy and Research, Alliance to Save Energy
- **Charles Bolden**, Senior Director of Congressional Affairs, Solar Energy Industries Association
- **Amy Farrell**, Senior Vice President of Government and Public Affairs, CRES Forum
- **Lisa Jacobson**, President, Business Council for Sustainable Energy
- **Jennifer Kane**, Energy Policy Leader, Trane Technologies
- **Billie Kaumaya**, Senior Director, Federal Affairs, American Clean Power
- **Yvonne McIntyre**, Vice President, Federal Affairs, Pacific Gas and Electric Corporation
- **Ethan Zindler**, Head of Americas, BloombergNEF

The eleventh edition of the Factbook provides new data and analysis about the performance of clean energy sectors by tracking year-on-year as well as long-term trends within the U.S. energy economy. Designed for a broad audience—from the energy professional, to the public policymaker, to the curious student—the Factbook offers an insightful and in-depth look at economics, market and investment dynamics, and technology trends.

This event is free and open to the public.
