

## **Briefing Notice**

## 2025 Sustainable Energy in America Factbook

Tuesday, April 1, 2025 • 3:00 - 4:30 PM EDT

Rayburn 2168 • Please RSVP @ eesi.org/040125factbook

Live webcast will be streamed at eesi.org/livecast

The Environmental and Energy Study Institute (EESI) and the Business Council for Sustainable Energy (BCSE) invite you to a briefing about the 13th edition of the Sustainable Energy in America Factbook. The Factbook provides valuable year-over-year data and insights on the U.S. energy transformation, featuring an in-depth look at the energy efficiency, renewable energy, and natural gas sectors, as well as transmission, digitalization, microgrids, offshore wind, hydrogen, and renewable natural gas.

This year, the Factbook dives into the growing energy demand driven by data centers and artificial intelligence. It examines trends in clean energy supply chains, growth in domestic manufacturing, and the ways in which permitting and siting impact the deployment of renewable energy. Panelists will speak to key takeaways from the 2025 Factbook and what they mean for industries working in all facets of the energy transition.

The Factbook, published by BloombergNEF and BCSE, is available to download for free at www.bcse.org/factbook.

## Speakers for this session include:

- Lisa Jacobson, President, Business Council for Sustainable Energy (BCSE)
- Derrick Flakoll, Senior Policy Associate, North America, BloombergNEF
- Diana Godlevskaya, Deputy Director, Federal Affairs, American Clean Power
- Charles Hernick, Head of U.S. Environmental Policy, Amazon
- James Manser, Vice President, Global Government Relations, Johnson Controls
- Jack Thirolf, Head of Energy Policy, NET Power
- Michael Yancey, Director of Congressional Policy, Citizens for Responsible Energy Solutions

## This event is free and open to the public.
