

Briefing Notice

Towards Healthier Outcomes in Surface Transportation

Thursday, April 10, 2025 • 3:00 - 4:30 PM EDT

Rayburn House Office Building

(Room 2168 (Gold Room))

Coffee and Light Refreshments Provided

Please RSVP @ eesi.org/041025transportation

Live webcast will be streamed at eesi.org/livecast

The **Environmental and Energy Study Institute (EESI)**, the **American Public Health Association**, and **Transportation for America** invite you to a briefing about the public health implications of transportation policy. As Congress embarks on the surface transportation reauthorization process, policymakers have the opportunity to revisit federal policies and investments that also shape public health, prosperity, and climate outcomes.

This briefing will explore the nexus of transportation, public health, and climate change. Panelists will describe potential negative health outcomes, stemming from issues like air pollution and road crashes. The briefing will also provide policy, process, and funding solutions that weave public health considerations into the surface transportation reauthorization process in a way that benefits both people and climate.

Introductory remarks by:

- ▶ **Rep. Mark Takano (D-Calif.)**

Speakers for this session include:

- ▶ **Megan Latshaw**, Associate Teaching Professor, Johns Hopkins University Department of Environmental Health and Engineering
- ▶ **Keshia Pollack Porter**, Bloomberg Centennial Chair and Professor, Johns Hopkins University Department of Health Policy and Management
- ▶ **Jacob Miller**, Senior Project Manager, Smart Surfaces Coalition
- ▶ **Benito Pérez**, Policy Director, Transportation for America

This event is free and open to the public.

For more information, contact Daniel O'Brien at dobrien@eesi.org or (202) 662-1880.
