

Agroforestry

Resilient Working Lands for Climate, Water, Biodiversity & Food Security

Audrey Epp Schmidt

Agroforestry Program Manager, North America

Our Vision

A world where the diversity of life thrives, and people act to conserve nature for its own sake and its ability to fulfill our needs and enrich our lives.

What Is Agroforestry?

The intentional integration of trees and shrubs into crops and animal farming systems to create environmental, economic, and social benefits.

Agroforestry Practices

Alley Cropping

Wind Breaks

Silvopasture

Riparian Buffers

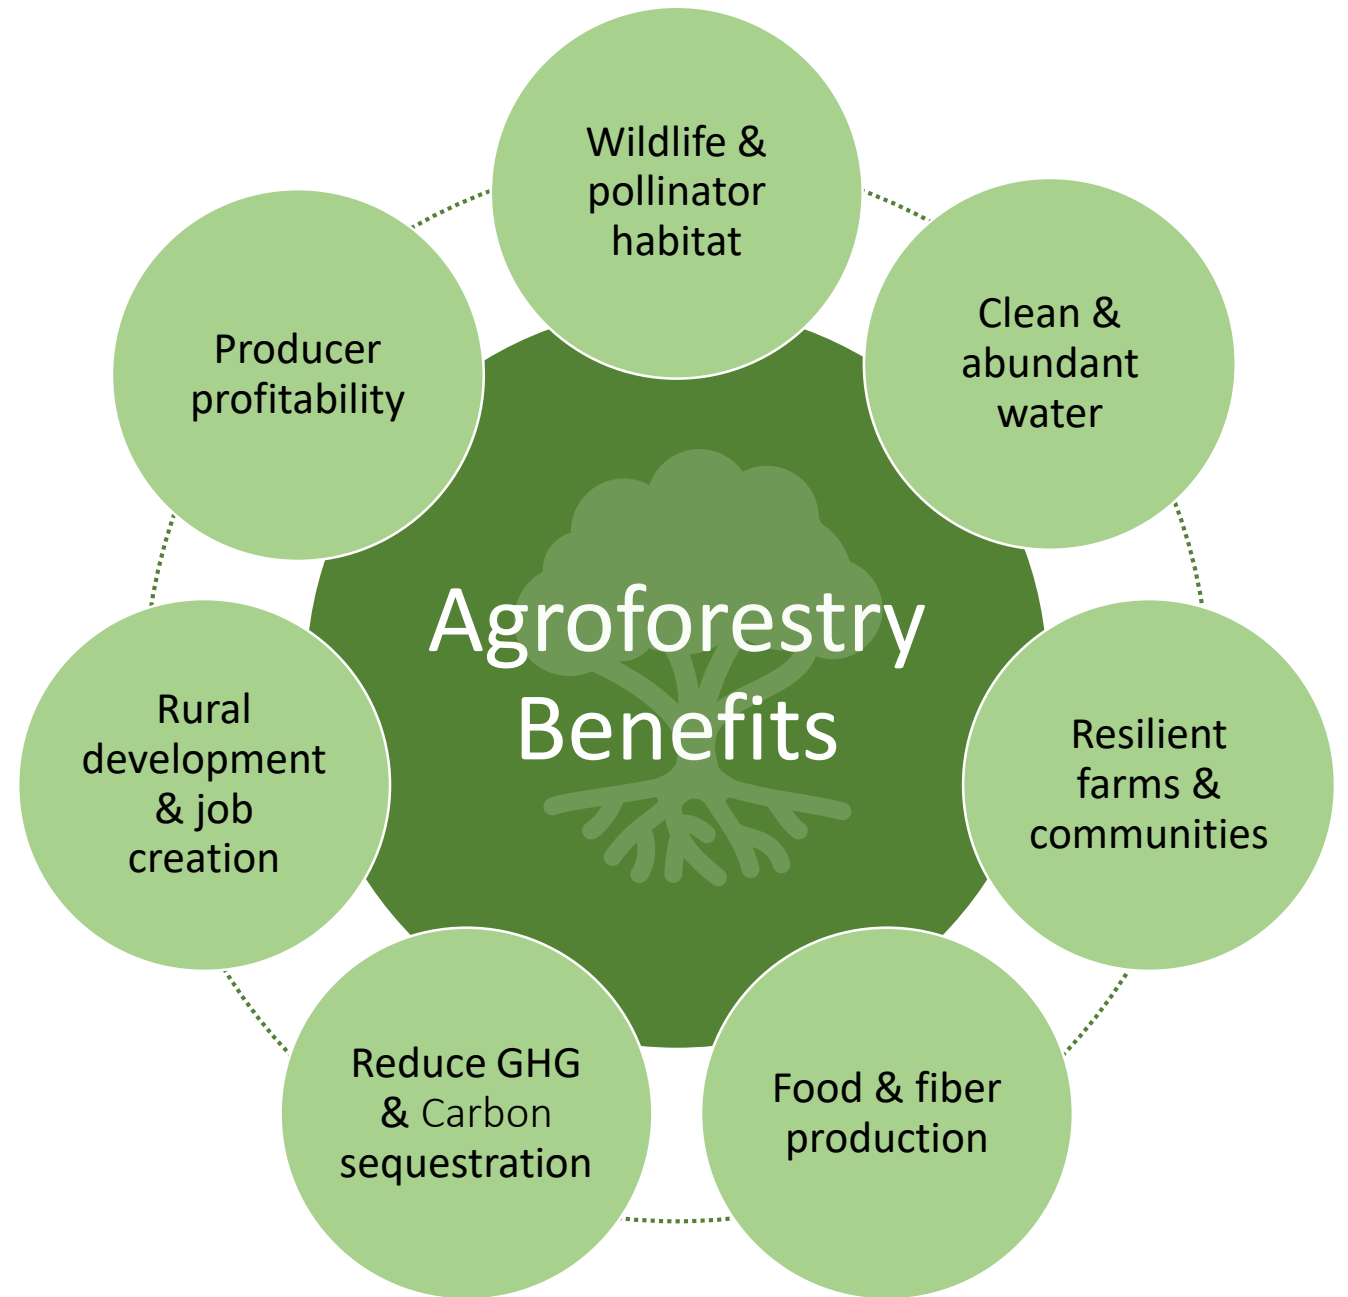

Forest Farming

Why Agroforestry?

Widespread adoption of agroforestry practices will benefit climate and nature and support the well-being of farmers, ranchers and communities.

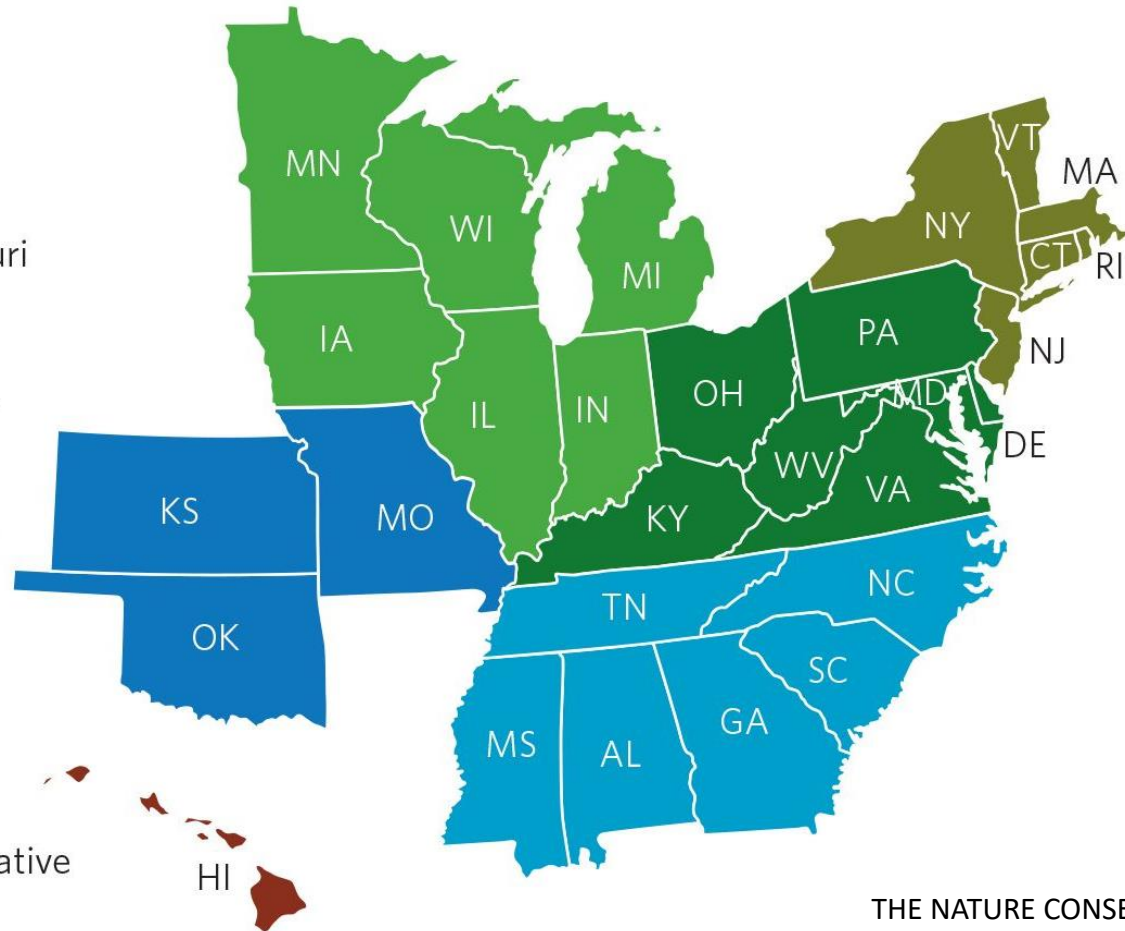

Partnerships for Climate-Smart Commodities Grant

Expanding Agroforestry Production & Markets for Producer Profitability & Climate Stabilization

\$60M • 5 Years • 29 States • 27 Partners
