• States are continuing to lead on climate change.

• State-level climate action is benefitting our economies and strengthening our communities.

• States are showing the nation and the world that ambitious climate action is achievable.
U.S. CLIMATE ALLIANCE

U.S. Climate Alliance members represent more than 36% of the population of the United States.

U.S. Climate Alliance members represent at least $7 trillion US dollars in GDP.

U.S. Climate Alliance members represent 1.3 million clean energy jobs.*
U.S. Climate Alliance partners with Resources for the Future and the Climate Impact Lab on calculating cost of climate damages
